Pop Quiz

What is Mayo Clinic's Primary Value?

The needs of the patient come first.

New Employee Orientation

Diversity, Equity, and Inclusion

MAKE A
DIFFERENCE

Mutual respect is one of our values. It is important to create an inclusive environment by treating everyone in our diverse community with respect and dignity.

What does Equity, Inclusion, and Diversity look like at Mayo Clinic?

Equity, Inclusion, and Diversity (EID) are embedded in Mayo Clinic values and recognized in all aspects of our business. Mayo Clinic's diversity, equity and inclusion strategy focuses on:

- **Workforce:** Recruit and build diverse, high-performing teams
- **Workplace:** Advance equity, transparency and accountability in every level of the organization by fostering a culture where all have a sense of physical and psychological safety, and enjoy equal opportunity to reach their full potential
- **Patient Care:** Recognize and acknowledge the cultures and diversity of our patients and aspire to meet their needs in all aspects of care
- **Community:** Cultivate strategic and diverse supplier and community partnerships with those whose values are aligned with Mayo Clinic values

Where To Find Us

The screenshot displays the website's navigation structure. The top menu includes Home, Practice, Education, Research, For You, Groups, and Policies. A secondary menu below it includes Home, Compliance, Privacy, Forms, Research, Revenue, and Laboratory. The main content area is titled 'Privacy' and features a central image of a keyboard with a prominent red 'Privacy' key. To the left is a sidebar with categories like Policies, Education, and Business Associate Agreements. To the right are three informational boxes: Privacy Incident Reporting, Compliance Hotline, and Integrity & Compliance Program. A 'News Center' widget is visible at the bottom left.

For questions related to Privacy, please contact DLEnterprisePrivacyOffice@mayo.edu or the [Privacy Officer](#) at your location.

Our Mission

To develop, coordinate, and maintain an effective Mayo Clinic Privacy Program that complies with regulatory requirements and provides fair and appropriate protection for our patients, workforce, and the organization.

Our Goals

- Support patient care by resolving patients' privacy concerns.
- Reinforce organizational compliance with state and federal privacy regulations and laws through implementation of policies and procedures.
- Support the practice's strategic plan by addressing privacy concerns.
- Create a work environment that promotes a team approach to problem solving and privacy awareness.
- Facilitate a learning community through educating employees about regulatory changes related to privacy.
- Support Mayo Clinic's Integrity and Compliance Program.

Privacy Incident Reporting

All privacy incidents should be reported to your site Privacy Officer by completing this [Privacy Incident Reporting Form](#). [Reference Guide](#) for completing the Privacy Incident Reporting Form

Integrity and Compliance
TOGETHER

What is Patient Privacy?

- Respect for our patients and the information they entrust to Mayo Clinic in order to care for them and to support our business.
- **Health Insurance Portability and Accountability Act**
 - The Department of Health and Human Services issued HIPAA privacy standards and security standards that require health care entities to protect patient information from unauthorized use or disclosure.

HIPAA regulations apply to all Mayo Clinic entities including:
Rochester, Arizona, Jacksonville, Mayo Clinic Health System

What does Patient Privacy mean to YOU?

- Our patients trust us to protect their privacy and keep their information confidential.
- By law, all Mayo Clinic employees, students, and contractors must keep protected health information private.
- No matter what your role with Mayo Clinic, you will likely encounter Protected Health Information.

What is Protected Health Information (PHI)?

- HIPAA standards apply to all protected health information (PHI) which includes demographic information and any identifying information about the patient including but not limited to:
 - Name
 - Address
 - Dates related to the patient (e.g., birth date, appointment dates)
 - Telephone numbers and email addresses
 - Identifying numbers that are specific to the patient, such as Social Security number or medical record number
 - Pictures of the patient

All patient information and demographic information is protected, whether it is on a computer, in a paper record, or verbal.

Patients have the right to:

- Access their medical information.
- Request amendments (changes) to their medical information.
- Obtain a list of when and why their medical information was shared externally.
 - Identified as *Accounting of Disclosures* request.
- Request to have their patient status remain confidential by opting out of the of Patient Directory.

Patients also have the right to:

- Request restrictions from third-party access to their medical information.
- Request alternate communications.
 - How we communicate their information, including allowing others to receive their information.
- Release their information to others.
- File a complaint.

Permitted Use & Disclosure of PHI

- **For Treatment Purposes**

- To provide, coordinate or manage their care.
- Includes communication between health care providers and other members of the medical team, both within and outside of Mayo Clinic.

- **For Payment Purposes**

- Use and disclose of PHI to create bills and collect payment from insurance companies.

Permitted Use & Disclosure of PHI

- **For Healthcare Operations**

- Use and disclosure of PHI when necessary to improve the quality of care provided to patients.
- Includes activities to improve patient care such as:
 - license staff to care for patients
 - prepare for state and federal regulatory reviews
 - train health care and non health care professionals
 - manage health care operations
 - improve health care services

You need written patient authorization to use patient information for purposes other than treatment, payment or healthcare operations. Check with your supervisor or Privacy Officer.

Permitted Use & Disclosure of PHI

- The need-to-know rule is HIPAA's minimum necessary standard.
- Minimum necessary means the least amount of information you need to do your job function.
- If your job functions require access to PHI, remember to request, share and disclose only the minimum amount necessary to complete the task.

“Curiosity viewing” of patient records is absolutely prohibited.

Did you catch that?!

- **You must have a treatment or business need-to-know to access a patient's information.**
- **If you do not have a business need-to-know:**
 - You **MUST** have a valid patient authorization on file in order to access the patient's record for personal reasons.
 - Mayo Clinic Policy prohibits access to your minor child's record using the Electronic Health Record (EHR).
- Do you have written permission or will the access benefit the patient or Mayo Clinic? If the answer is no, the access is personal curiosity and is strictly prohibited by law.

Pop Quiz

Access to a patient's medical record is authorized in which of the following scenarios:

1. Your parent was seen by a provider today; you review provider's instructions regarding medications in the medical record to be sure your parent understands them correctly.
2. Your hip replacement patient is experiencing shortness of breath. Although you are in Orthopedics, you review previous cardiac consultation notes.
3. A patient was seen by your preceptor for an ankle fracture. You are curious about a scar on the patient's neck.
4. Your sister asks you to check her son's medical record to verify whether or not a prescription has been called in for his ear infection.

If you answered #2, you are correct. There is a business need-to-know in this scenario, in order to provide optimal patient care.

Your hip replacement patient is experiencing shortness of breath. Although you are in Orthopedics, you review previous cardiac consultation notes.

In all other scenarios, you would need to have a valid patient authorization on file in order to access the patient's record for the purposes indicated.

Breach Reporting

- A **Breach** occurs when PHI is accessed (viewed) or disclosed (shared) without a business need-to-know.
- Staff are required to report a discovered or suspected breach to the Privacy Office.
 - Contact your site/regional Privacy Officer
 - Report anonymously by calling 1-888-721-5391 or online at www.mayocliniccompliancereport.com
- Mayo Clinic strictly enforces the Anti-Retaliation Policy
- Staff who knowingly violate Mayo Clinic privacy policies will receive appropriate corrective action, up to and including termination of employment.

Basic Security Requirements

- Protect yourself and protect our patients
 - Lock up or keep out of sight any confidential information to ensure that unauthorized people do not see it.
- Always remember to lock your workstation or log off when you leave your work area and do not share your username and password.
 - **Any activity under your username is your responsibility!**

Confidentiality

Simply by being on the Mayo campus, you may encounter confidential information concerning patients, employees and business information. Confidential information includes all material (oral, paper-based and electronic) related to the operation of Mayo including but not limited to:

- Financial information
- Patient names and other identifying information
- Patient personal and medical information
- Patient billing information
- Employee names including salaries and employment information
- Proprietary products and product development
- Marketing and general business strategies
- Any discoveries, inventions, ideas, methods, or programs that have not be publicly disclosed
- Any information marked as “confidential”

Unauthorized access, use or release of confidential information may be cause for immediate dismissal.

Conclusion – Key Points

- Do not access or disclose patient information to anyone unless there is a need-to-know.
 - Social media use should not include any identifiable (or potentially identifiable) patient information.
- Discuss patient information in a private place where others cannot overhear. If you overhear other staff discussing patient information, respectfully bring it to their attention.
- Keep patient information out of public areas. Do not leave paper containing patient information where others can see it. Dispose of PHI properly.

Resources for You

- Your department leadership
- Site Compliance and Privacy Officers
 - **We are here to help!**
- Compliance website with contacts and FAQs
- Compliance Hotline
 - Anonymous and confidential
 - Staffed by external third party
 - 1-888-721-5391
 - www.mayocliniccompliancereport.com

Pop Quiz:

Which of the following might breach patient confidentiality and be potential cause for dismissal?

1. Taking a selfie on your work unit and posting to Twitter
2. Discussing patient care while on an employee elevator
3. Doing a quick check of your brother's x-rays to see if you identify a broken bone
4. Sending an email to your school adviser regarding the unique case you saw this afternoon

All scenarios may be a breach:

1. If a patient is in the background, this is potential breach.
2. Although an employee elevator may seem like a safe place to discuss patient care, a relative or friend of the patient may be on the elevator.
3. Unless you have a valid authorization from your brother on file, you may not access any part of his medical record – even if he verbally requests it.
4. If any information is disclosed by which someone might identify the patient, a breach has occurred. Of note, patient information should never be sent via email unless encrypted.

Information Security Social Engineering Attacks

It's imperative to handle Mayo Clinic's information technology tools in a responsible and inquiring manner. Beware of potential information security attacks such as those described in subsequent slides.

Phishing

- Phishing
 - Email phishing is the #1 way criminals obtain info. Always click the phishing icon in the upper right hand corner of Outlook to report suspicious emails
 - *Ex)* Email informs you that your password has expired, it requests you to click on an outside link to renew it

New Employee Orientation

Baiting and Social Identity

- Baiting
 - *Ex)* A link pops up naming you the 100th person to visit the site; you win an award by clicking the link below!
- Social Identity
 - *Ex)* Criminal obtains your DOB from your social media account

New Employee Orientation

Vishing and Tailgating

- Vishing
 - *Ex)* You receive a phone call saying they are Mayo Clinic and your account has been hacked. They need your password to reset your account.
- Tailgating
 - *Ex)* A person without a badge asks you to hold the door to a secure location for them.

New Employee Orientation

Infection Prevention and Control Everyone's Responsibility

MAKE A
DIFFERENCE

What You Need to Know

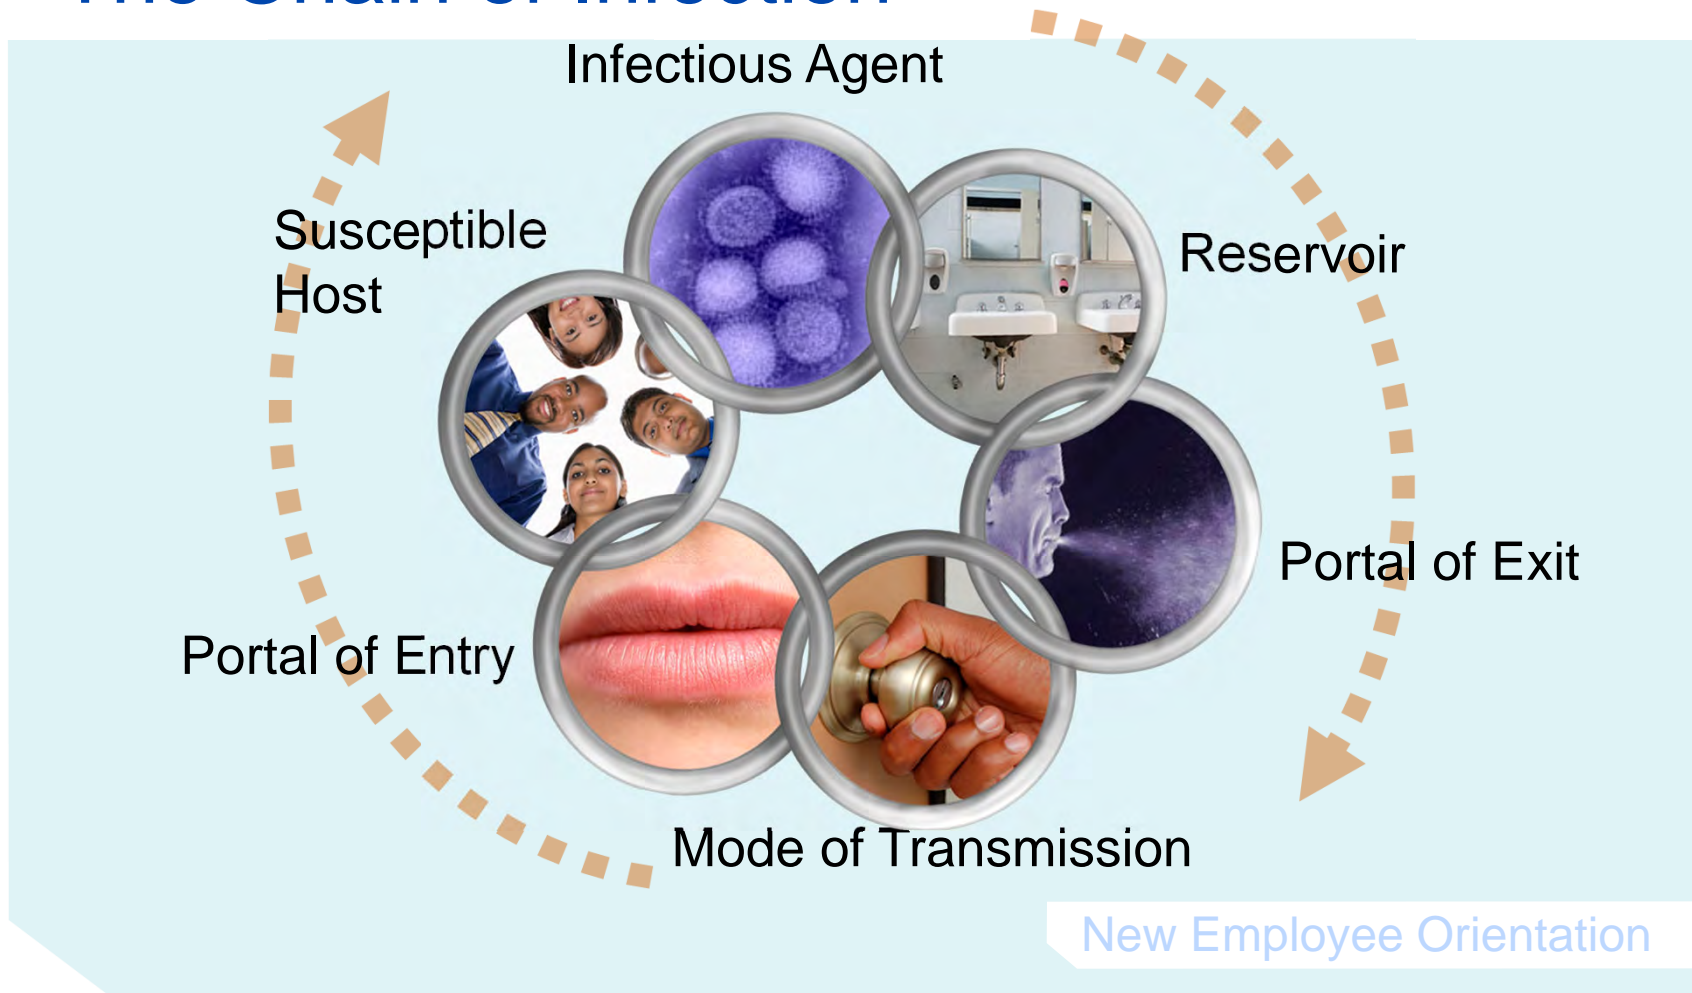

- Learn to readily identify invisible, small causes of disease, so that you can protect yourself, our patients, visitors, and your coworkers from the risk of an infection
- Describe how diseases are spread by the Chain of Infection
- Identify your role in preventing the spread of disease in the work place

New Employee Orientation

The Chain of Infection

Primary Prevention – Stay Home When Sick

- Fever
- Persistent cough
- Diarrhea
- Vomiting

New Employee Orientation

Primary Prevention – Stop Transmission at Work

- Hand hygiene
- Respiratory etiquette
- Disinfect your work area
- Stay current on immunizations
- Stay informed

New Employee Orientation

Your Role – Hand Hygiene

- Soap and water
 - Before eating
 - After using the restroom
 - When hands are visibly soiled
- Waterless alcohol-based hand rub

Note: Artificial nails are not permitted when working directly with or handling patient food/medication.

New Employee Orientation >>

Your Role – Follow Respiratory Etiquette

- Cover your cough or sneeze
- Use simple masks for patients or yourself
- Perform hand hygiene

New Employee Orientation

Your Role – Get Your Immunizations

Immunizations break the chain of infection by protecting you from becoming the next host and spreading disease.

- At risk of illness
- Vaccinated

New Employee Orientation >>

If An Exposure Occurs.....

- Wash area immediately with soap and water
- If exposure to mouth or eyes, flush with large amounts of water
- Seek evaluation immediately by calling Employee Health or your Supervisor
- Do not wait until the next work day to report

NOTE: Search “Pathogen” on Mayo intranet to find Exposure Control Plan specific to your assigned location.

New Employee Orientation >>

Pop Quiz

Complete the following statements:

Proper hand hygiene requires use of soap and water before
eating, after using the restroom, or when hands are visibly soiled.

Immunizations break the chain of infection by protecting you from
becoming the next host and
spreading disease.

Respiratory etiquette includes covering your cough or sneeze,
performing proper hand hygiene, and
using simple masks for patients or yourself.

New Employee Orientation

Mayo Clinic Safety

MAKE A
DIFFERENCE

Enterprise Physical Security Department

Fire (Code Red): RACE and PASS

RACE

- Rescue /Relocate (Move yourself and others out of harm's way), Alert /Alarm (call 911), Confine, Extinguish

PASS

- Pull (the pin)
- Aim (at the base of fire);
- Squeeze (the handles together)
- Sweep the extinguisher side to side to extinguish

New Employee Orientation

Fire Safety Guidelines

- Locate fire extinguishers and pull stations in your area
- Ask your supervisor about department and site specific plans
- Know your fire exit signs
- ***Know your evacuation routes***, for both fire and other emergencies. ***Move to safety.***
- Prioritize your safety and the safety of your patient, visitors, and colleagues over all other concerns

New Employee Orientation

Succeeding at Mayo Clinic

MAKE A
DIFFERENCE

Mutual Respect

- Foster mutual respect and support Mayo's commitment to diversity
 - Mutual Respect policy
 - Harassment policy
 - Title IX Sexual Misconduct policy

Everyone has the right to pursue his/her career free from harassment, coercion or disruptive conduct from coworkers or organizational superiors.

New Employee Orientation

Sexual and Other Harassment

An unwelcome behavior or action of a sexual nature is sexual harassment when

- Made a term or condition of employment affecting an individual
- Used as the basis for employment decisions affecting the individual
- Interferes with one's work performance or creates an intimidating, hostile, or offensive work environment

Third party harassment can create a hostile work environment.

- May not bother the two people involved in a conversation, but bothers a third party.

New Employee Orientation

Social Media Guidelines

Visit the Mayo Clinic Social Media Network page via the intranet

- Do not share confidential or proprietary information about Mayo Clinic.
- Must maintain patient privacy.
- Applies whether posting to own sites or commenting on other sites.
- Photographs containing any patient identifiable information are strictly prohibited.

New Employee Orientation

Pop Quiz

True or False:

- I may send a patient a “friend” request.
- Photos are okay so long as the patient consents to taking the picture.
- You just assisted on a really interesting procedure; it’s okay to post about it!

New Employee Orientation

FALSE

- All of the answers to the pop quiz are **false** as they violate patient rights concurrent with HIPAA. Please review the **Social Media Network guidelines** for further information.
