FOUNTAIN CENTERS

A Mayo Clinic Health System program for substance abuse and addiction

EXTENDED CARE PROGRAM

ADMISSIONS

Individuals who may be appropriate referrals to this program include those who are stepping down from more structured or intensive placements (e.g., residential treatment centers, criminal justice incarcerations). This program is ideal for individuals who have not succeeded in the community due to repeated relapses and would benefit from a longer duration of treatment but less structured placement than residential treatment. Due to this program being less structured than a residential program, the individual's motivation for treatment will be taken into consideration during the admission process. If transferring from residential treatment, it is expected that the patient successfully completed the program.

Fountain Centers accepts payment from commercial insurance, private pay and the Consolidated Chemical Dependency Treatment Fund (CCDTF) and participates in most southern Minnesota provider networks.

Contact Admissions at 1-800-533-1616 or 507-377-6411 for more information on how to refer or access treatment services at Fountain Centers.
