**Recovery Support Groups**

Recovery Support Groups are for anyone in recovery. They are peer-led groups that do weekly check-ins where they share their high points and low points of the week and how they handled them. Each participant is encouraged to identify and share weekly goals and they give and accept support from peers. All of the groups are held at a Fountain Centers location. Participants are asked to be sober to attend. Call 507-377-6711 with any questions.
