

April 2021

Recipient: Allison Benzing
Nomination submitted by: Patient

When Allison would come in on her days as my RN she makes me feel safe and comfortable. When I arrived to detox I felt about as low as you can feel. I even thought about leaving. My first night/day she was the first person I met. She could see how sick I still was. She was so professional yet caring and made me feel safe. She made me realize that her and even the others are there to make myself and the others healthy and strong, positive and that they are there for us. Allison is very wonderful and great at her job. She is there for anyone. She is always on top of her game! She would always keep me to stay positive and ask me questions to keep me to stay focused and strong. When I left and she walked me down she said “You got this! I believe in you!” no one has ever said that to me. She is the best RN nurse and loves her job and cares about the people. I really hope she wins this award. She deserves it!
