

July 2021

Recipient: Cathy Leibl, RN
Nomination submitted by: Patient

I had some imaging scheduled on what happened to be my birthday. Cathy was my nurse that day and mentioned that I deserved to be doing something “more fun” on my special day. I told her that it was better than a previous birthday when I had surgery.

She stayed with me for the hour and a half that I was there and we chatted away. Shortly before I was released to go home, Cathy surprised me with a beautiful cut flower vase with lavender roses! I was totally surprised that someone I had just met would do such a wonderful thing for someone they hardly knew.

She was the most caring person I had ever met. She enclosed a card that read “better birthdays are coming!” She is definitely one in a million. Cathy made my day and my birthday.
