

September 2020

Recipient: Kerstin Nedegaard, RN

Nomination submitted by: Patient

You could use about 30 of her. She is bubbly, happy, smiley, competent, professional, well educated, full of energy and willingness to help and please. I had her several times in my 7 day stay in February. She is fast – knows her stuff and has an answer right away. She is cute and always made me feel at ease. I was kind of “down” off and on and she always took the time to listen and ask me what she could do to cheer me up! It makes being in the hospital a lot less scary and boring.

She is awesome! I had several nights of no sleep. On the 3rd night, I told her I had to set my alarm for 3 am to call and wake my hubby for work – she said – “oh no, you need your sleep – give me his # and the time and I will wake him up!” She did it 3 nights in a row for me! Above and beyond!
