

August 2021

**Recipient: Macy Malin, RN**  
**Nomination submitted by: Patient/Relative**

Macy was the nurse for my child who was hospitalized on their birthday. She put together games, decorations, treats, and gifts for the patients in the unit. Even though my child missed their birthday party and was still in the hospital on her birthday, Macy and the floor staff did a great job and made my child's day special. Macy went above and beyond and I am grateful for all that was done for my child to brighten their time here.
