

May 2021

Recipient: Tabatha Ballentine
Nomination submitted by: Patient

Tabatha was my nurse my 1st night I was admitted with COVID (and my 3rd day). She was so sweet/caring. I did not have a good experience in the ER, so I was nervous about being admitted. Tabatha always made sure I had everything I needed, stayed on top of my medications. She made my experience so much better. She deserves this award for her hard work, and compassionate care. I can't thank her enough for giving me such great care and for making me feel comfortable about being admitted. I was admitted 11-22-20 through 11-26-20 on 6th floor COVID unit.
