More than 40 million Americans have some form of hearing loss.

Did you know?
Hearing loss occurs in 1 in 3 people between the ages of 65 and 74. By the age of 75, the number of people who experience hearing loss increases to 1 in 2.

Not sure if you have hearing loss?
You may have hearing loss if you:
- Frequently ask others to repeat themselves
- Turn up the radio or television volume and others complain that it is too loud
- Turn down social invitations to noisy environments
- Struggle to hear female and children’s voices

If you have any of these symptoms, talk to your provider to find out if a hearing exam or Audiology services are right for you.

For more information or to schedule an appointment, call the Department of Audiology at 608-392-9888.
